Open meeting to exchange experiences on the difficult and happy moments of a culturally diverse everyday family life.

In the event of divorce or separation, many binational parents find themselves having to deal with questions on international custody and contact rights as well as transnational regulations for the receipt of childcare allowance and other benefits. This open discussion meeting is the right setting to share your own experiences with cross-border custody arrangements and transfer benefits with other persons concerned and, if necessary, to get important knowledge input from a professional party.

### Moderation:

Mag.<sup>a</sup> Stanislava Schraufek Merdinger, counsellor at FIBEL, psychologist  
Mag.<sup>a</sup> Gertrud Schmutzer, counsellor at FIBEL, communication scientist, cultural and social anthropologist  
Mag.<sup>a</sup> Olivia Lasser, counsellor at FIBEL, cultural and social anthropologist
